

Super Position

Design: Jean Nouvel Design

Description

Bookcase with uprights (Ø7/8") and shelves (thickness 3/4") made of extruded aluminum and assembled through an invisible joining system providing the frame stability and a special load resistance. Shelves equipped with extruded aluminum end caps with push-in connection. Made completely of aluminum and 100% recyclable.

The bookcase is always available only in a monochromatic version, except for compositions A-B-C-H-I where it is possible to select the color and/or finish of some shelves (see following page*). For these compositions (A-B-C-H-I) a two-tone or bi-material bookcase is available. The frame and shelves are available in matt painted white, matt painted black nickel or in natural anodized brushed aluminum. Bleached oak or Canaletto walnut shelves are available only for two-tone and two-material versions. The versions with painted shelves always have the uprights in the same color while the versions with shelves in natural brushed anodized aluminium always have gloss brushed uprights.

It is recommended fixing the piece to the wall; this is mandatory for compositions A, B, C, H, I. Maximum loading capacity for each shelf 66 lbs (30 Kg), evenly distributed. Made in Italy.

Finishes & Materials

Frame: Natural anodized brushed aluminum / Matt painted white / Matt painted black nickel.

Shelves: Natural anodized brushed aluminum / Matt painted white / Matt painted black nickel.
Bleached oak or Canaletto walnut only for two-tone and two-material versions.
