

## Fuji

*Design: Francesco Rota*

### Description

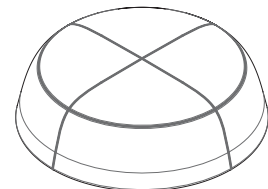

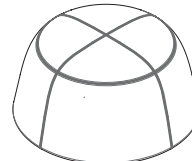

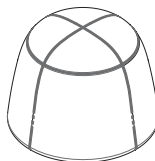

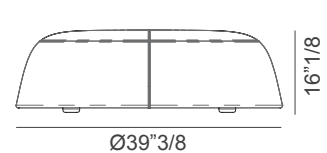

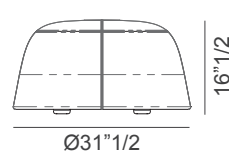

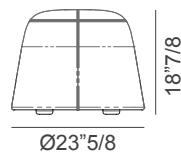

Small casual ottoman collection where generous and sweet volumes and a soft trapezoidal silhouette evoke the conical shape of the Japanese volcano. Available in three different sizes, this ottoman is made of polystyrene (PS) bearing frame, and multilayer base with concealed feet. Variable-density foam polyurethane padding with polyester wadding. The fabric or leather covering every part of the unit, is manufactured to enhance its softness. In addition, the covers are completely removable. Bicolor version also available in different options of combinations (To see available combinations, refer to the "Finishes & Materials" PDF). Made in Italy.
