

Flow

Design: Jean Marie Massaud

Description

A family of seatings of great impact and comfort. Designed for the home, the office and the community areas. Available with a wide range of bases and finishes.

This chair version, also available with armrest, comes with a shell, made from polycarbonate through injection moulding, which is mass-pigmented in the matt colors white or black and has a standard double finish: gloss outside, and microgroffered inside.

It can be completed with upholstery: a thermoformed padded countershell with a small pad made from quilted polyurethane and polyester wadding. The padded versions can be upholstered in fabric or leather. The upholstery is removable.

This model features a 4-legged steel base in folded sheet metal, matt painted white or graphite grey, with an aluminum coupling device painted in the same color. 360° swivel. Made in Italy.

Finishes & Materials

Seat height: 17"3/8

**WHITE OR
COLORED SHELL**

**PADDED SHELL
(COUNTERSHELL)**

Armchair: 22"1/4W x 22"7/8D x 30"H
Seat height: 17"3/8
Armrest height: 26"3/4

**WHITE OR
COLORED SHELL**

**PADDED SHELL
(COUNTERSHELL)**

As an optional, an upholstered PAD made with polyurethane and polyester wadding, and with quilting that is thermally bonded to the fabric, is available upon request. This special manufacturing technique endows the texture patterns and the padding with a three-dimensional look, while ensuring quality and durability over time. Because of these special features, the upholstery covering cannot be removed.
