

## Flow Filo

*Design: Jean Marie Massaud*

### *Description*

Part of the Flow family, this armchair has a great visual impact. Created with steel rods and characterized by special finishes, the outline, the volume, exalting the timeless shape of a product that has become an icon of international modern design.

Load-bearing frame in steel rods, of different diameters, with original sled base design, epoxy powder-coated in matt bronze or black nickel finishes, with a specific treatment for outdoor use.

Also, as an optional, a pad made by molding in soft integral polyurethane, in matt mud and anthracite grey colors, is available upon request. This particular soft integral polyurethane is called Free Form, with a smooth soft touch surface, with a good mechanical and aging resistance. Available in the seat and backrest version. Made in Italy.

### *Finishes & Materials*

**Steel structure:** Matt painted bronze / Matt painted black nickel.

**Optional polyurethane seat & backrest pad:** Mud brown / Anthracite grey.
