

## Fl@t

*Design: Martin Ballendat*

### *Description*

Armchair made from a thin, flat, flexible and padded form, with internal structure in stratified technical material, which is bent to obtain a unique shell. Upholstered with fabrics or leathers as per collection or customer's own material (velvets excluded). Steel fixings hold the seat and backrest in place while creating an attractive decoration. The shell rests on an arc in black coated aluminum, connected to the base using the same material. Matt black lacquered steel base, available in fixed version or in 360° swivel version, with or without memory return and with original or invisible mechanism. Fl@t gives an appearance of lightness but also offers the highest level of seating comfort. Made in Italy.

### *Finishes & Materials*

**Shell:** C.O.M. fabric, fabric Cat. 4 or leather Cat. 7 and 9.

**Base:** Steel, matt lacquered in black color.

**Glides:** Wagner or PVC.
