

28 Stem

Design: Omer Arbel

Description

The stem cable suspended horizontal and vertical system comes in unlacquered brass or black powder coated stem with a Ø4”5/8 white or black canopy rated for ceiling use.

Individual 28 pendants result from a complex glass blowing technique whereby air pressure is intermittently introduced into and then removed from a glass matrix which is intermittently heated and then rapidly cooled. The result is a distorted spherical shape with a composed collection of imploded inner shapes, one of which acts as a shade for the light source.

Standard 28s are made with clear glass exterior spheres and milk white interior lamp holder cavities. 28s are possible with infinite versatility in color compositions, sizes and shapes. Designed by Bocci.

Finishes and materials

Structure: Black or brass finish.

Pendants: Clear or colored glass.

Canopy: White or black.
