

28 Semi Rigid

Design: Omer Arbel

Description

Suspension lamp designed to be horizontal, meaning that the pendants don't hang directly below, but instead trail off across a space, around a corner or simply deviate from their gravitational directive. As such, this fixture is designed to be hung from any number of optional swag points mounted elsewhere from the canopy.

Standard 28s are made with clear glass exterior spheres and milk white interior lamp holder cavities. 28s are possible with infinite versatility in color compositions, sizes and shapes.

The 28 semi-rigid is a flexible suspension system enables pendants to be nestled in close-knit groups or loosely composed in a wider field, allowing each piece to be perceived individually. Designed by Bocci.

Light source: 1.5W LED - 2500K or 20W Xenon - 2600K

Finishes & Materials

Pendants: Clear or colored glass.

Structure: Braided metal coaxial cable.
