### HPL

White Marble

Corten

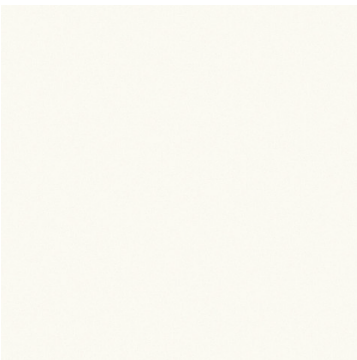

#### HPL

High pressure laminate for outdoor use has a special production process that makes it resistant to the atmospheric agents, to wear and tear, moreover has a scratch-proof surface. This is the ideal solution for elegant and functional table tops.

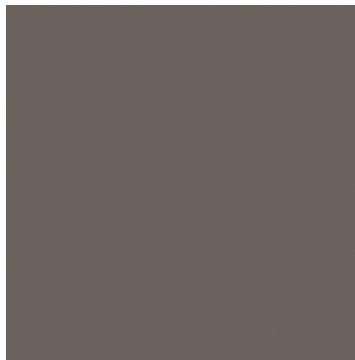

## BASE

---

### 304 Steel (powder coated)

White

Terra

#### 304 Steel

All the finishings are made with powder coatings, this treatment ensures an exceptional resistance to corrosion in the outdoor use and at the same time is respectful of the environment as polluting volatile solvents are not spread in the atmosphere (as it happens in case of liquid varnishes).
