

## Belt & Cross

*Design: Alain Gilles*

### Dimensions

**Belt:** Ø17"3/8 x 18"7/8H

**Cross:** Ø17"3/8 x 18"7/8H

### Description

Pair of ottomans, named Belt and Cross, with wood structure padding in sintered polystyrene foam and shaped polyurethane foam; lining in bonded velveteen - polyester fiber. The padded top section is the same in both, with no straight lines but only curved surfaces that gently complement each other.

They are distinguished by their bases, which give each of them a distinct personality: the Belt round metal base plays with the concept of stability, while Cross' cross-shaped wooden base is the detail that makes this accessory immediately recognizable.

Their similarities make them ideal for pairing together, like two members of the same family with opposing personalities that complement each other.

Made in Italy.
