

Gocce

Design: Bartoli Design

Description

Suspension lamp based around the central element of two tear-shaped Pyrex glass bubbles, a transparent one on the outside and the other, featuring a satin finish, on the inside. The glass bubbles are connected to a metal frame, which supports them and contains a light source. Available in a single version, or as part of a composition featuring three or five lamps, complete with ceiling rose. Made in Italy.

Finishes & Materials

Frame: Special metal (Champagne).

Lampshade: Transparent external glass - Stain finish internal glass.
