

Combination

Design: Alain Gilles

Description

Coffee table available in two different heights. The union of the circle, rectangle and half sphere creates an object whose perception and interpretation vary according to the observer's point of view.

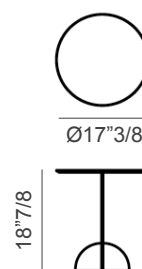

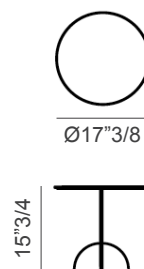

When seen from the front, the rectangular element looks very wide; the same element, when observed from the side, on the other hand, appears to be extremely slender.

The top comes in ceramic or marble, while the base is offered in a wide range of metal finishes. Made in Italy.
