

Outline

Design: Mario Mazzer

Description

A sideboard distinguished by the wood, more specifically the warm canaletto walnut finish used for the entire structure. The top, which is slightly inset to emphasise the warmth and the quality of the wood, can be made of two different materials: in canaletto walnut, like the structure, or in ceramic.

The base is available in two variants: with low feet, for those who prefer minimal silhouettes, or with diamond-shaped metal feet, for those who prefer objects with a strong personality. Available with glass shelves (maximum capacity: 15 kg per shelf) and in the version with three or four doors. Made in Italy.

Finishes & Materials

Top: Canaletto walnut veneered wood / Matt or Glossy Ceramic / Ceramic silk finish.

Structure: Canaletto walnut veneered wood. **Shelves:** Glass.

Feet: Metal (Anthracite grey / Dove grey).

Only for the diamond-shaped version feet: Plus metal (Bronze / Pearl gold / Platinum / Lead) / Special metal (Burnished).
