

Risiko

Design: Studio Kronos

Description

Wall mirror in mirrored glass. Optional: 110/220V LED lighting system. Risiko is created on three levels, with a vertical shape that can therefore comfortably reflect the human figure.

The model is angular with a punchy aesthetic and seems to hold together three large fragments of a previously intact mirror. When equipped with LED light, facing the wall as a light frame, its decorative function increases further. Made in Italy.

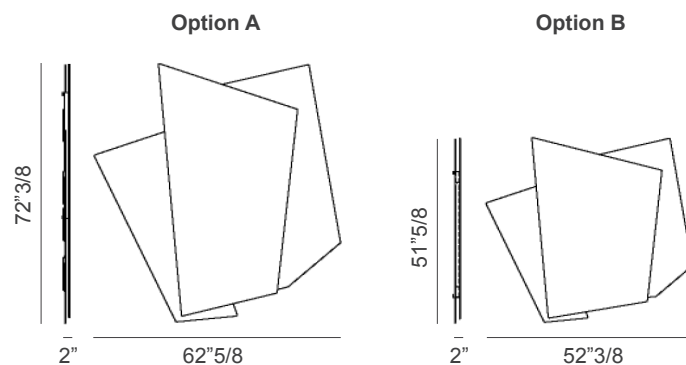

Finishes & Materials

Mirror: Mirrored glass.

Dimensions

A) 62"5/8W x 2"D x 72"3/8H

B) 52"3/8W x 2"D x 51"5/8H
