Description

Table with base in embossed lacquered steel or lacquered steel. The top is made of ceramic Marmi. What makes this table a unique model is the base with a strong architectural value, enlivened by a punchy graphic sign. Four blades cut through the air and intersect each other, creating an energetic composition with an apparently irreproducible pattern.

Each leg is designed with a T-section, which multiplies the opportunities for crossing and overlapping. The entire base is thus strengthened by a rhythmic chiaroscuro effect, in which the blind zones contrast with the metal portions struck by the light. Made in Italy.
