

Velar

Design: Carlo Rocchetti

Description

Suspension lamp with diffuser in artistic decorated glass. Canopy in black chrome steel. LED lights.

This lamp is produced by folding a sheet of glass on itself, creating two asymmetrical tips with a studied geometry. Velar has a simple design embellished with carefully selected details, such as the rough surface of the glass and the more intense smoky color towards the centre.

A 110V LED light is positioned along the central fold and radiates the shade of the glass. Made in Italy.

Optional: additional cable 78"3/4 long.

Dimensions

Single pendant A: 23"5/8W x 8"5/8D x 10"5/8"H
+ 98"3/8 max H of Cables and Canopy
