

Boulevard Argile Drive

Design: Archirivolto

Description

Extendable table with base in embossed lacquered aluminum. Rectangular top in tempered glass clay-spatulated. Extension in lacquered embossed MDF matching the base.

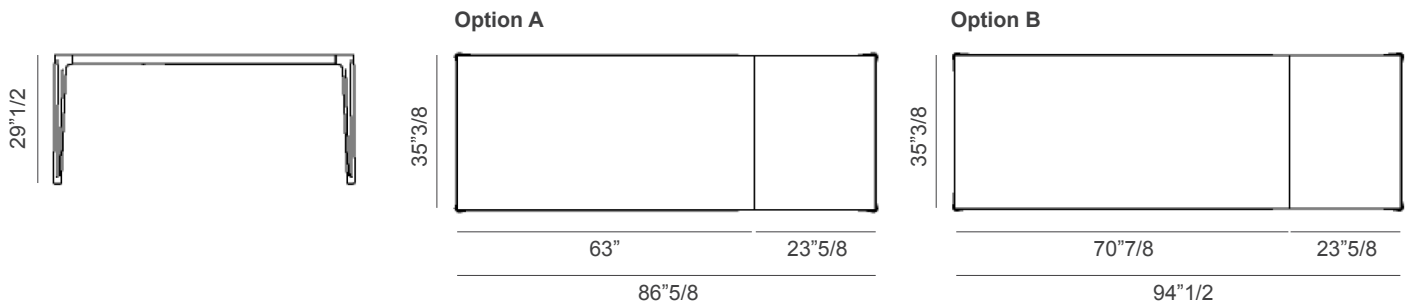

A design dining table with a disarming simplicity. It fits into a residential setting with ease and contemporary charm.

The legs have a vertical cavity, enhanced by sophisticated finishes chosen from among different intense or bright shades. The same finish rigorously frames the top. Made in Italy.
