

# Fold

*Design: Tratto9*

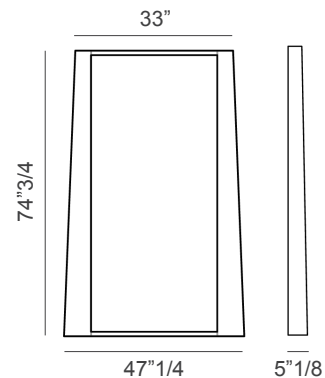

## Description

A stand-out piece that features a glass frame that merges with the slightly folded mirror to become a single element.

The frame of this wall mirror, which is narrower at the top and gradually widens towards the base, creates two “wings” at the sides, producing an optical effect that gives the mirror a feeling of lightness and movement. Fold is available in two different combinations. Made in Italy.

## Dimensions

47"1/4W x 5"1/8D x 74"3/4H
