

Nelson L

Design: Matteo Nunziati

Description

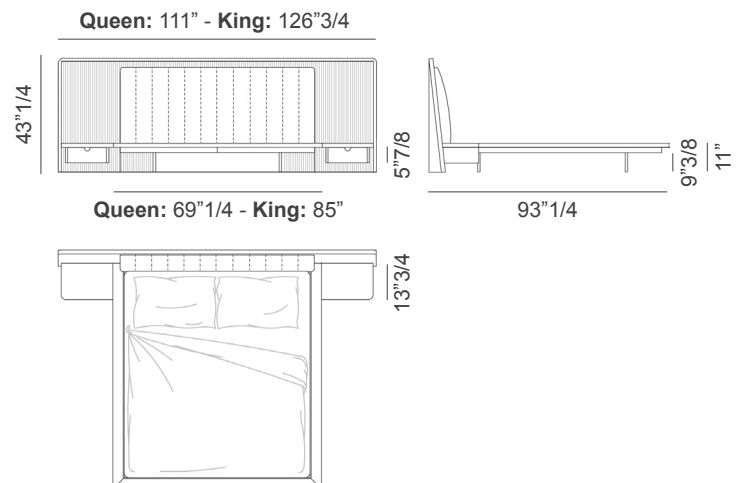

Double bed characterized for the clean lines, precise analysis of the shapes and proportions, and the meticulous care taken over the details. The imposing wood headboard surrounds and frames a smaller, softer, padded headboard. The flat, slimline bed base, also made of wood, rests on slender metal feet: elements which give the Nelson bed the impression of being “suspended” as if it is floating in the bedroom.

In this version, the headboard is larger and the nightstands are incorporated in the bed creating a balanced and elegant result. The base is made in wood and the headboard in veneered wood with matt lacquered wood edge. The smaller internal headboard is padded in polyurethane foam, covered in velveteen bonded onto polyester fiber and upholstered in removable fabric. Feet with cylindrical profile in matt painted metal. This bed is offered in queen and king size. Made in Italy.
