

Geometric Wood

Design: Marconato and Zappa

Description

A fixed table that changes the perception of its figure by playing on perspective: with a hypnotic visual effect, it looks different depending on the point of view, thanks to the drop-shaped silhouette of the four legs.

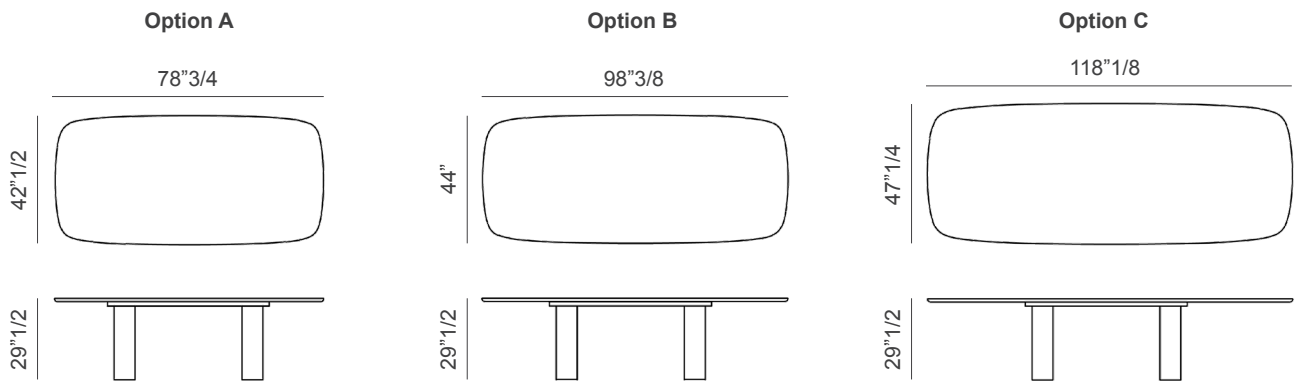

The scenic presence of this table is further enhanced by the ebony wood used to make both the shaped top and the legs, as if the table were carved from a single block of wood. Made in Italy.
