Design: Gino Carollo

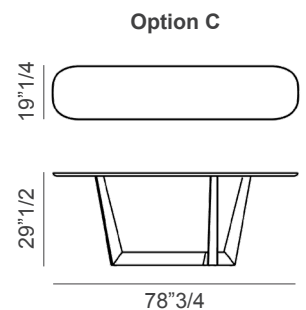

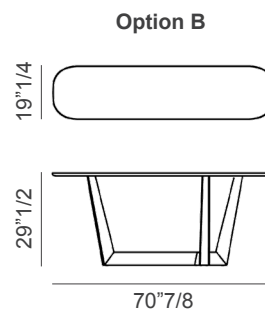

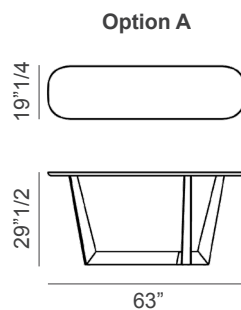

Description

Console with a metal trapezium base developed diagonally under the top, allowing minimum obstruction and optimizing the space. To ensure stability, the trapezium is supplemented with two legs which can be customized with inserts in metal, wood or ceramic.

The base is distinguished for its elevated dynamism, its solidity and sculptural impact. The top (rectangular with rounded corners), available in wood, ceramic or marble, is placed on it firmly, with a final effect of incredible lightness. Made in Italy.
