

Tenet

Design: Massimo Scolari

Description

Desk with structure in plywood and maple veneer, equipped with a chest of drawers—composed of one big drawer and an internal small one, supported by a metal column—and a lateral leg which presents a door with a document holder in saddle leather and a flap door, with storage compartments that can be used also as a shelf. The top and the drawers are covered with saddle leather and the metal parts are painted in a bronze color. The top can be equipped with a multi-socket, predisposed for two schuko sockets and two high-speed USB sockets, to which a swivel lectern with inductive charging for mobile phones is added. Right and left versions available. Made in Italy.
