

Noah

Design: Umberto Asnago

Description

Desk with asymmetrical top in particleboard panel veneered in wood, with edges and asymmetrical desk pad covered in saddle leather or leather. The user side houses two pencil drawers in solid wood. Qi® wireless charging device built into the top. The base is composed of two fixed units of different dimensions in black melamine coated panels, with sides always covered in saddle leather or leather. The narrower left cabinet has a black melamine coated panel door covered in saddle leather or leather on the visitor side and a door in particleboard panel veneered on the user side. The wider right-hand cabinet has a black melamine coated panel door covered in saddle leather or leather and an open shelving unit in veneered plywood on the visitor side; on the user side it is equipped with four drawers in veneered particleboard panel. The drawers are in veneered plywood while the handles are in solid wood. Made in Italy.
