

Kanaha

Design: Daniele Lo Scalzo Moscheri

Description

Sofa with wooden particleboard E1 class structure, covered with interliner. The seat and backrest are made of hard or cellulose wooden fiber panels. Padded seat, backrest and armrest cushions with removable covers in fabric or leather. Down padding can be replaced with ECOSY padding in recycled polyester fibers without surcharge. The armrests are only available in recycled bonded leather. The back panel can be upholstered either with bonded leather or with the same cover as the cushions, with not removable coverings. The bronzed brown finishing (ME07) available for the steel base is one of a kind, its peculiarity is the non-uniformity and the continuous chromatic mutation. Other finishes are also available for the base. Made in Italy.
