

Geometric

Design: Alain Gilles

Description

A fixed table that changes the perception of its figure by playing on perspective: with a hypnotic visual effect, it looks different depending on the point of view, thanks to its four legs with drop-shaped feet that appear either thick or sharp and thin, playing together to offer a different perception of their visual weight as you walk around the table.

The scenic presence of this table is further enhanced by the mono material finish in marble. Both, top (1/2" thickness) and legs, are offered in four different marble finishes. Made in Italy.
