

Atlas

Design: Mauro Lipparini

Description

Stylistic and aesthetic inspirations are at the heart of the Atlas sectional. A design with interplanetary force in which diversity becomes an added value. Shapes and forms meet each other and are combined in an imaginary space, creating a setting in which thin and thick arms, high and low backs, corner units, chaise-longues and accessories blend together. The result is a multiple architectonic image with a cosmopolitan style that responds to the most complex requirements. Atlas expresses freedom without compromise. The back support is optional and can only be used with the Atlas back cushion.
