

Oracle

Design: Gino Carollo

Description

The new fixed dining table Oracle by Gino Carollo is the expression of circular geometric shape; a symbol of perfection. A furniture piece whose shape expresses totality and centrality. The top with a circular or oval shape is made of MDF veneered in mocha oak or sucupira. Its unique base resembles the construction of the flower of life: three overlapping circles that appear to turn around a single point. The metal base is available in micaceous brown, brass or titanium.

Finishes and materials

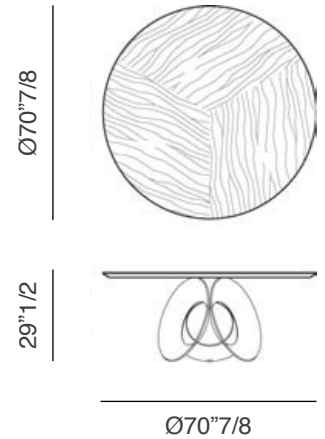

Base: Metal, finishes: micaceous brown, brass or titanium.

Top: MDF veneered mocha oak or sucupira.
