

Grid

Design: Kensaku Oshiro

Description

A bench made of braided rods in powder-coated stainless steel that can be attached by means of the appropriate hardware elements of the series to achieve a sectional sofa for the outdoors. The collection is made of treated steel for the outdoors, with cushions and backrests padded for outdoor and indoor environments.

Finishes and materials

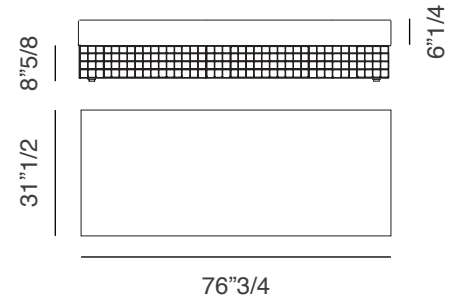

Frame: Metal, powder-coated stainless steel; white, moka, gray or silk gray.

Covers: Fabrics from the collection, categories C.O.M., B, C and D.
