

Pinch

Design: Skriver Design

Description

Pinch sofas and armchairs have slender tubular metal frames that hold together the simple padded backrest and armrest pieces. Different heights and widths can be combined to create a number of solutions and compositions, all of which are cosy and inviting. The products in their various forms can be complemented by comfortable cushions and practical round tables that can be placed on either side.

The covers are not removable and they can be made of fabric or leather.
