

28

Design: Omer Arbel

Description

Wall or Ceiling lamp with a paintable mounting plate designed to be mounted on walls as well as ceilings. 28 is an exploration of specificity in manufacturing. Instead of designing form itself, here the intent was to design a system of making that yields form. Individual 28 pendants result from a complex glass blowing technique whereby air pressure is intermittently introduced into and then removed from a glass matrix which is intermittently heated and then rapidly cooled. The result is a distorted spherical shape with a composed collection of imploded inner shapes, one of which acts as a shade for the light source. Standard 28s are made with clear glass exterior spheres and milk white interior lamp holder cavities. 28s are possible with infinite versatility in color compositions, sizes and shapes. Designed by Bocci.

Light source: 1.5W LED 20W Xenon

Finishes & Materials

Pendants: Clear or colored glass.

Mounting plate: Matt black rubberized stainless steel.
