

28 Copper

Design: Omer Arbel

Description

The 28 copper suspension lamps provide a different compositional reading that results from shaping the copper tubing during installation. Pendants can be angled in any direction to provide a range of sculptural forms. The copper will weather and tarnish, registering the passage of time in its patina.

Standard 28s are made with clear glass exterior spheres and milk white interior lamp holder cavities. 28s are possible with infinite versatility in color compositions, sizes and shapes.

A flexible copper suspension option (in natural copper) available for all 28 pendants, providing a different compositional reading and a range of sculptural forms. Designed by Bocci.

Light source: 1.5W LED - 2500K or 20W Xenon - 2600K

Finishes & Materials

Pendants: Clear or colored glass.

Structure: Flexible copper tubing.
