

Hanami

Barovier&Toso®

Barovier&Toso®

Description

Just as in a gigantic fish tank, where air bubbles gracefully rise to the surface, the blown glass elements in the upside-down world of Hanami, with their irregular surfaces, (in Aquamarine, Grey, Liquid Citron or Crystal colors) fall from the ceiling plate with the same lightness and elegance, to form a dense cloud of reflections and refractions. Immersed in this delicately colored cloud float 4 to 13 elements, made of opaque white glass with shadings of color identical to the predominant one, hiding the LED sources of light. The spot lights embedded in the ceiling structure are also LEDs. There are five models available, all LEDs are included.
