

Primière Dama

Description

Flowing with pendants, the chandeliers in this elegant collection are characterized by the unusual orientation of the lamp holders which are always in crystal regardless of the color selected from the six available. They are available in twelve, sixteen or twenty-four lamps; the smallest model is available in two versions – one of these at a reduced length for more modern contexts. Two wall lamps complete the range, available in one or two light versions. The lampshades are finished in white or black color.

Available Murano colors: Crystal, Grey, Light Pink, Black, Liquid Ciltron or Aquamarine.
