

## Zidiz

### *Description*

Extendable table with top in Teak wood and frame also in Teak wood or in white, sand, black or bronze coated aluminum. The clean and modern Zidiz Collection is known for its combination of wood and thin aluminum shaped seats and ceramic tops. Closed, this table works perfectly as a table for six people. At full size it caters for ten guests.

### *Finishes and materials*

**Frame:** Teak wood or Coated aluminum in White, Sand, Black or Bronze colors.

**Top:** Teak wood.

**Aluminum** is a non-ferrous metal, which combines great mechanical rigidity with light weight; this makes it especially suitable for making furniture. If treated correctly it has a good resistance to corrosion. One of the treatments is powder coating. After a chemical pre-treatment an epoxy powder is applied statically and baked.

Carefully selected, fully grown **Teak**, harvested in accordance with the strictest environmental standards. The reason for its durability is the high levels of natural oils it contains. The resulting minimal moisture absorption prevents warping which gives it great stability. Extremely resistant to the influences of chemicals, as well as against attacks by vermin.
