

## 16 Armature

*Design: Omer Arbel*

### *Description*

Ceiling lamp with a steel armature system in a soft-touch matt black finish allows pre-composed branches to be easily connected to a series of hubs during installation. This lamp is formed by sequentially pouring three separate layers of molten glass – in varying opacities – on a horizontal plane. Each layer responds to the indeterminate shape of the previous pour to create a uniquely layered whole. Two of these pieces are then attached and illuminated with an internal LED lamp. Available in 3 colors: grey 1, grey 2 or white 1. Matt black rubberized round canopy. Power supplies: integral. Designed by Bocci.

### *Finishes and materials*
