

57 Stem

Design: Omer Arbel

Description

Floor to ceiling lamp with structure in a black or brass finish. Pendant available in grey or white opaline glass. White opaline pendant comes with an additional light source. Mirrored option is also available. This lamp is an exploration of a technique used for producing closed cell foam. The process involves trapping voids of air of different sizes and configurations within a glass matrix, yielding a shape loosely referencing a rain cloud.

Designed by Bocci.

Finishes and materials

Structure and canopy: Black or brass finish.

Pendant colors: Grey or white opaline glass or mirrored glass.
