Design: Omer Arbel

Description

Table lamp made with blown glass, copper mesh, black flexible cord with brass base and dial control. Power supplies: integral. The table light has a 92"1/2 long flexible cable with dial control for on / off / dimming. There is notch on the back of the pendant base and dial control for wall mounting. A white glass bubble is captured inside a fine copper mesh basket and then plunged into hot clear glass. Air is blown into the matrix to gently push the white glass through the mesh, creating a delicate pillowed form that is suspended inside the thick outer layer of clear glass. Sometimes the copper mesh basket folds and crinkles, adding specificity to each piece. Designed by Bocci.

Dimensions

± 4"3/4W

Base: Ø3"

Cable length: 92"1/2

Finishes and materials

Base: Brass metal.

Pendant: Blown glass and copper mesh.
