

28 Armature

Design: Omer Arbel

Description

Ceiling lamp is made by an innovative fabrication process that manipulates both the temperature and the direction of air flow into blown glass. The result is a slightly distorted sphere with an interior landscape of satellite shapes, including an opaque milk glass diffuser that houses a LED lamp. A steel armature system in a soft-touch matt black finish allows pre-composed branches to be easily connected to a series of hubs during installation. The series are available in 90 different color ways making every fixture unique in form and composition.

Designed by Bocci.

Finishes and materials

Armature: Matt black rubberized stainless steel.

Pendants: Clear or colored glass.
