

28 Stem

Design: Omer Arbel

Description

Floor to ceiling lamp with structure in a black or brass finish and dial control. Made with clear glass exterior spheres and milk white interior lamp holder cavities. Pendants comes in clear or colored glass. The lamp is created as a result from a complex glass blowing technique whereby air pressure is intermittently introduced into and then removed from a glass matrix which is intermittently heated and then rapidly cooled. The result is a distorted spherical shape with a composed collection of imploded inner shapes, one of which acts as a shade for the light source. Designed by Bocci.

Finishes and materials

Structure: Black or brass finish.

Pendants: Clear or colored glass.
