

73 Stem

Design: Omer Arbel

Description

Floor lamp with structure in a black or brass finish, a 13³/₄ diameter base and integral dimming system. Pendants available in clear, grey 1, grey 2, grey 3, blue or green glass. This lamp is formed by blowing liquid glass into a folded and highly heat-resistant ceramic fabric vessel. The resulting shape has a formal and textural expression intuitively associated with fabric, which becomes permanent and rigid as it cools. Each lamp is completely unique in proportion, size and shape. Designed by Bocci.
