

## Zidiz

*Design: Kris Van Puyvelde*

### *Description*

Dining table with teak wood or white, sand, black or bronze coated aluminum frame and top in Ceramic (White, travertine, black, vulcano black or bianco statuario) or Teak wood.

Designed by Royal Botania.

### *Dimensions:*

86"5/8W x 47"1/4D X 29"3/4H

### *Finishes and materials*

**Frame:** Teak wood or white, sand, black or bronze coated aluminum.

**Top:** Ceramic (White, travertine, black, vulcano black or bianco statuario) or Teak wood.

Carefully selected, fully grown **Teak**, harvested in accordance with the strictest environmental standards. The reason for its generally commended durability is the high levels of natural oils it contains. The resulting minimal moisture absorption prevents warping which gives it great stability. Moreover, the wood is extremely resistant to the influences of chemicals, as well as against attacks by vermin.

**Aluminium** is a non-ferrous metal, which combines great mechanical rigidity with light weight; this makes it especially suitable for making furniture. If treated correctly it has a good resistance to corrosion. One of the treatments is powder coating. After a chemical pre-treatment an epoxy powder is applied statically and baked.
