

Tuileries

Design: Barovier & Toso

Description

With its modern form rendered more traditional using Murano glass with the Rugiada technique, patented in the 20th century by Barovier&Toso, Tuileries is an infinite wall lamp: its perfect symmetry enables the creation of endless compositions of illuminated and non-illuminated elements, always perfectly arranged and enriched by the brushed metallic structure with its warm honey bronze color. Five models are proposed, intended merely as examples: the opportunities for personalisation are limitless, allowing entire walls to be covered, almost as a sort of luxury panelling. The lighting is 12V LED. Made in Italy.
