

# Tuileries

*Design: Barovier & Toso*

## *Description*

With its modern form rendered more traditional using Murano glass with the Rugiada technique, patented in the 20<sup>th</sup> century by Barovier&Toso, Tuileries is an infinite wall lamp: its perfect symmetry enables the creation of endless compositions of illuminated and non-illuminated elements, always perfectly arranged and enriched by the brushed metallic structure with its warm honey bronze color. Five models are proposed, intended merely as examples: the opportunities for personalisation are limitless, allowing entire walls to be covered, almost as a sort of luxury panelling. The lighting is 12V LED. Made in Italy.

## *Finishes and materials*

**Diffuser:** Crystal (CC) Murano glass.
