

# Ercole

*Design: Barovier&Toso*

## Description

Inspired by an original idea by Ercole Barovier in the 1940s and created using the 'rostrato' technique he had just invented, the Ercole collection is distinguished by a rich play of light that creates a sense of luxurious glamour. It comprises a delicate yet imposing floor lamp and two table lamps in different sizes: the bigger of the two includes an additional light source inside the base, controlled separately. The metal finishings are in polished chrome. Made in Italy.
