

Il Pezzo 8

Design: Barbara Bertocci and Cosimo Terzani

Description

A sparkling forest of legs support a majestic block of wood with strong, lively outlines. The top of this table, with its organic shape, is made of 2³/₄ thick solid walnut. The choice of the wood grain alignment is done with great care to create flowing veins and colors throughout the top. The treatment on the wood is done with natural oil that protects the wood but at the same time allows it breathe. Furthermore the final coat on the top is done with Nanotechnology, an organic silica-based natural treatment which makes the wood water repellent. The legs are made of casting and are available in different finishes. A small brass cylinder seals the authenticity and uniqueness. Available in custom sizes and finishes. Made in Italy.

Finishes & Materials

Top: Walnut wood.

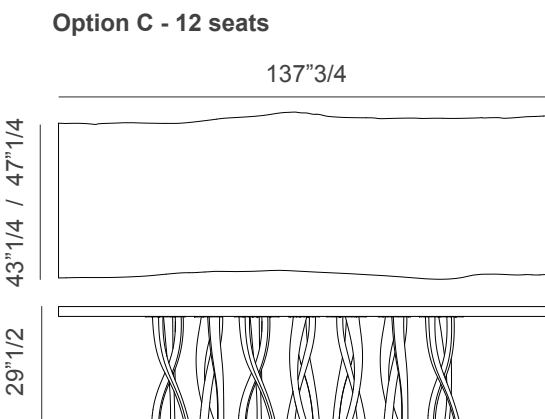

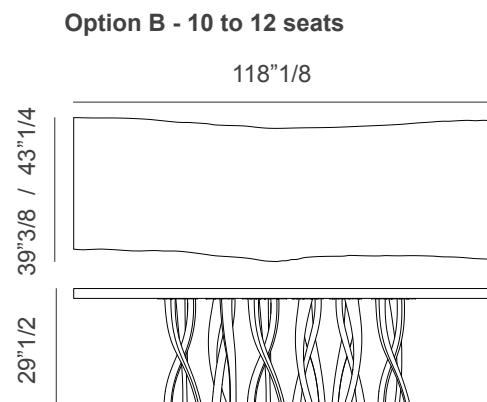

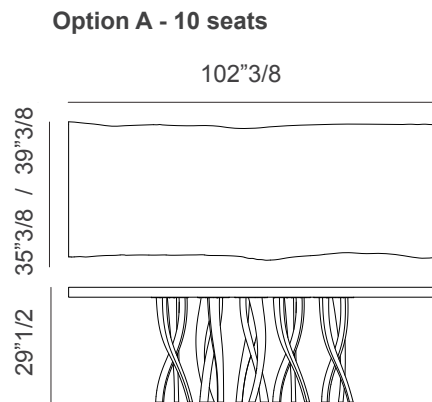

Legs: Metal (Nickel - Black nickel - Rose bronze).
