

# Miura

*Design: Cristian Malisan, Enrico Franzolini*

## Description

The Miura chair and the armchair are made of solid beech legs with metal feet and seat and backrest padded in fire retardant polyurethane foam available in the collection coverings. In the armchair, also available in the fully upholstered version with beech legs, the backrest profile extends to create a pleasant armrest, while in the chair version, the design acquires a new form of lightness. Made in Italy.
