

Portofino

Design: Studio Balutto Associati - Santiago Sevillano

Description

Swing, aluminum frame woven with Nautic Rope, with ropes as per drawing. This swing is a posh piece, a real attraction. Combining the swing in any space, it contributes to make the environment evocative, poetical, unique. Ideal for both private and contract fittings, it is an element that can give a touch of enchantment to the garden furniture and verandas. When put in an indoor space, it creates evocative settings, increasing the furnishing standing.

Weight capacity: 330 pounds. Children use only under parental control.
