

N.C. Sideboard

Design: Lodovico Acerbis

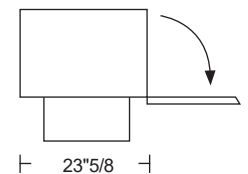

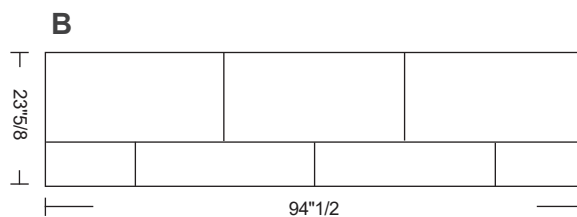

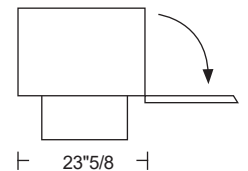

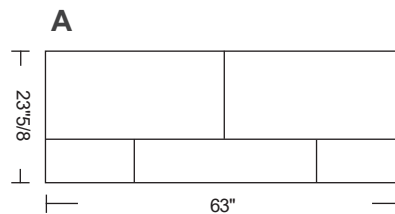

Description

N.C is a luxury Italian designer sideboards with a rear-lighting system that enables the light to be diffused simultaneously from the upper part through a strip in matt methacrylate, inside the compartments and from the lower part. The volume of the unit, bathed in the light, appears to be suspended, a sensation that is heightened by the semi-transparency of the matt methacrylate base or by the particular design of the metal base.

Dimensions

A: 63"W x 23"5/8D x 23"5/8H
