

# Moss

*Design: Giuseppe Viganò*

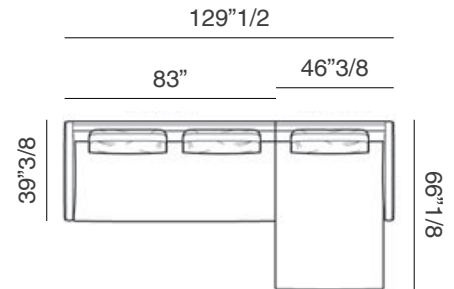

## *Description*

Minimalist characteristics and sophisticated immediacy are the main features of the elegant Moss sectional. The single seat in expanded polyurethane of various densities rests on a thin and linear base that accentuates its shape. The visual result is a reassuring sensation of daily comfort with attention to the minimalist details.

Light piping runs around the perimeter of the body and cushions. A tailoring detail that makes the sofa precious and sophisticated.
