

## Cluster 28

### **Description**

Suspension lamp made with cluster of 13 or 19 pendants that hung from a round canopy.

Longest lengths are determined by client. Specified longest lengths is from the underside of the canopy to the bottom of the pendant. Up-charge applies for cable lengths over 118"1/8.

White powder coated canopy, lamps and power supplies are included.

Remote mounted power supplies recommended for ease of long term maintenance. Installation to be done by certified personnel to ensure code compliance.

The pendants hang in shape of a hexagonal bouquet, bundled together by an adjustable ring, which changes the curvature of the piece and its proportional reading.

28 is an exploration of specificity in manufacturing. Instead of designing form itself, here the intent was to design a system of making that yields form. Individual 28 pendants result from a complex glass blowing technique whereby air pressure is intermittently introduced into and then removed from a glass matrix which is intermittently heated and then rapidly cooled.

The result is a distorted spherical shape with a composed collection of imploded inner shapes, one of which acts as a shade for the light source.

Standard 28s are made with clear glass exterior spheres and milk white interior lamp holder cavities.

28s are possible with infinite versatility in color compositions, sizes and shapes.
