

De-Symetria

Design: Luca Scacchetti

Description

The De-Symetria desk is available in several combinations.

- Top made with particleboard panels and veneered wood, with or without saddle leather insert.
- 1 Leg made of melamine coated panel with edges covered in saddle leather and central part in matching veneered wood as the top. On the leg there is a cross-shaped chromed steel element that acts as a support for the top to which it is fixed.
- 1 Return Cabinet with structure in matching wood, with edges in matching saddle leather. On the internal side there's a drawer unit with either 3 drawers or 1 drawer + 1 file. On the external side there are three doors. Drawer fronts and doors are in matching wood.

The metallic parts are available in chromed steel only.

Made in Italy.
